WHO IS PATIRER TECHNOLOGIES?

DEUTSCH

Patirer Technologies, das sich den Slogan "Macht das Leben Schön" und die Kundenzufriedenheit zum Prinzip gemacht hat, bedient die Bereiche Gesundheit, Schönheit und Kosmetik mit innovativen Produkten. Seit dem Tag seiner Gründung hat es sich zum Ziel gesetzt, eines der führenden Unternehmen der Branche in Europa zu werden. Patirer Technologies bietet kundenorientierten Service durch die erfolgreiche Arbeit seines erfahrenen, dynamischen und kompetenten Teams. Das in den Niederlanden ansässige Unternehmen ist eines der innovativsten Unternehmen der Branche in Europa und der Türkei mit in Europa entwickelten und CE-zertifizierten Geräten. Patirer Technologies liefert seine Produkte an seine Kunden mit einem Zertifikat, nachdem die Schulungen durch sein Expertenteam abgeschlossen sind. Patirer Technologies bietet Dienstleistungen für Krankenhäuser, medizinische Zentren, Kliniken, Schönheitssalons und Schönheitszentren in Europa und der Türkei an.

ENGLISH

Patirer Technologies, which has adopted the slogan "Make Life Beautiful" and customer satisfaction as a principle, serves the health, beauty and cosmetics sectors with innovative products. Since the day it was founded, it has aimed to be one of the leading companies in the sector in Europe. Patirer Technologies provides customer-oriented service with the successful work of its experienced, dynamic and expert team. The Netherlands-based company is one of the innovative companies in the sector in Europe and Turkey with CE certified equipment developed in Europe. Patirer Technologies delivers its products to its customers with a certificate after the trainings are completed by its expert team. Patirer Technologies provides services to hospitals, medical centres, clinics, beauty salons and beauty centres in Europe and Turkey.

NEDERLANDS

Patirer Technologies, dat de slogan "Maakt het Leven Mooi" en klanttevredenheid als principe heeft aangenomen, bedient de gezondheids-, schoonheids- en cosmeticasector met innovatieve producten. Sinds de dag van zijn oprichting streeft het ernaar een van de toonaangevende bedrijven in de sector in Europa te zijn. Patirer Technologies biedt klantgerichte service met het succesvolle werk van zijn ervaren, dynamische en deskundige team. Het in Nederland gevestigde bedrijf is een van de innovatieve bedrijven in de sector in Europa en Turkije met in Europa ontwikkelde CE-gecertificeerde apparatuur. Patirer Technologies levert haar producten aan haar klanten met een certificaat nadat de trainingen zijn afgerond door haar deskundige team. Patirer Technologies levert diensten aan ziekenhuizen, medische centra, klinieken, schoonheidssalons en schoonheidscentra in Europa en Turkije.

TÜRKÇE

"Hayatı Güzelleştir" sloganını ve müşteri memnuniyetini ilke edinmiş olan Patirer Technologies, sağlık, güzellik ve kozmetik sektörlerine inovatif ürünlerle hizmet vermektedir. Kurulduğu günden bu yana Avrupa'da sektörün önde gelen firmalarından biri olmayı hedeflemiştir. Patirer Teknolojileri; deneyimli, dinamik ve uzman ekibinin başarılı çalışmaları ile müşteri odaklı hizmet sunmaktadır. Hollanda merkezli firma, Avrupa'da geliştirdiği CE belgeli ekipmanlar ile Avrupa ve Türkiye'de sektörün yenilikçi firmalarından biridir. Patirer Technologies, ürünlerini uzman ekibi tarafından eğitimleri tamamlandıktan sonra sertifika ile müşterilerine teslim etmektedir. Patirer Technologies, Avrupa ve Türkiye'de hastanelere, tıp merkezlerine, kliniklere, güzellik salonlarına ve güzellik merkezlerine hizmet vermektedir.

Patirer OxyGyno (OxyGeneo)

3-in-1 Super Facial Portable Oxygen Facial Machine

PATIRER[®]
INNOVATION THAT CHANGES THE FUTURE

Features: Pigment Removal, Skin Tightening, Whitening, Skin Care

Target Area: Entire Face

Brand Name: PATIRER

Warranty: 1 Year

Technology: Dutch Technology

Technology: Ultrasonic + RF + Oxygen

Handpieces: 3 Handpieces

Advantage: Clinically Approved, 100% Safe

Plug Type: EU

Origin: China

Voltage: AC 110V/220V, 50–60Hz

Operating System: Oxygen Facial Machine

Vibration Frequency: 5–30 Hz

User Interface: LCD Color Touchscreen

What Is OxyGyno?

OxyGeneo is a next-generation skincare technology that distinguishes itself from other methods by delivering three essential treatments simultaneously, making it a comprehensive and advanced skin care solution.

Patirer Gold Needle

RF Fractional Microneedling Device

PATIRER[®]
INNOVATION THAT CHANGES THE FUTURE

Features: Wrinkle Reduction, Slimming, Skin Rejuvenation, Facelift, Whitening, Tightening

Target Areas: Body, Face, Eyes, Legs/Arms, Nose

Brand Name: PATIRER

Warranty: 1 Year

Technology: Dutch Technology (Fractional RF for Wrinkle Reduction)

Handpieces: 2 Handpieces

Advantage: Clinically Approved, 100% Safe

Plug Type: EU

Origin: China

Vibration Frequency: 5–30 Hz

User Interface: LCD Color Touchscreen

Needle Cartridges: 10-pin / 25-pin / 64-pin / Nano Needle Tip

What Is Gold Needle (Microneedling RF)?

Gold needle, also known as microneedling radiofrequency, is one of the non-surgical skin rejuvenation methods. Through specially designed handpieces equipped with gold-plated needles, radiofrequency energy is delivered from the skin's surface to its deeper layers. This process stimulates tissue repair and promotes collagen production.

Patirer 7D HIFU

Skin Tightening, Wrinkle Reduction, Anti-Aging, Skin Tightening, Wrinkle Reduction

PATIRER[®]
INNOVATION THAT CHANGES THE FUTURE

Features: Skin Tightening, Wrinkle Reduction, Anti-Aging, Skin Tightening, Wrinkle Reduction, Anti-Aging

Target Areas: Face, Body, Eyes, Neck/Throat, Legs/Arms, Vagina

Brand Name: PATIRER

Warranty: 1 Year

Technology: Dutch Technology

Technology: Skin tightening, facelift, anti-aging, body slimming

Handpieces: 2 Handpieces

HIFU Cartridges: 1.5 mm, 2.0 mm, 3.0 mm, 4.5 mm, 6 mm, 9.0 mm, 13 mm

Advantage: Clinically Approved, 100% Safe

Plug Type: EU

Origin: China

Voltage: 0.1–3.0 J

Operating System: High-Intensity Focused Ultrasound

Shots for Body: 20,000–30,000 shots

Shots for Face: 10,000–20,000 shots

What Is 7D HIFU?

HIFU 7D MMFU technology is a treatment method that uses sound waves to focus precisely on the desired layer of the skin. This targeted approach generates controlled heat in the selected area. The procedure does not harm the skin and stimulates collagen tissue, promoting tightening and supporting natural skin repair.

Patirer EmSport

Nova RF Dual-Handle

PATIRER[®]
INNOVATION THAT CHANGES THE FUTURE

Features: Skin Tightening, Weight Loss, Firming, Cellulite Reduction, Muscle Building, Body Contouring, Non-Invasive Buttock Tightening Treatment

Target Areas: Torso, Legs/Arms, Hands, Abdomen, Hips

Brand Name: PATIRER

Warranty: 1 Year

Technology: Dutch Technology (High-Energy Focused Electromagnetic Waves)

Handpieces: Optional 2/4/5/6 applicators

Advantage: Clinically Approved, 100% Safe

Plug Type: EU

Origin: China

Voltage: AC 220V/50Hz, AC 110V/60Hz

Operating System: Emslim Neo RF Muscle Sculpting Machine

Frequency: 1–100 Hz

User Interface: LCD Color Touchscreen

Operating Modes: Manual Mode + Automatic Mode

What Is EMSPORT?

EMSPORT is the most advanced and high-intensity electrical muscle stimulator, delivering the highest 7-Tesla output in its class. Through its electromagnetic field capability, it effectively stimulates muscles by penetrating skin, clothing, and fat layers to induce intense and continuous muscle contractions, which are ideal for muscle growth. One of the most successful anti-cellulite treatments, the Mslim device operates as a system that simultaneously targets and eliminates all major factors contributing to cellulite formation.

Patirer Alex Laser

Hair Removal Device

PATIRER[®]
INNOVATION THAT CHANGES THE FUTURE

Brand Name: PATIRER
Warranty: 2 Years
Technology: Dutch Technology
Monitor: 10-inch digital true-color LCD
Monitor: 10-inch digital true-color LCD
Interface: Touchscreen
Control System: Single-chip
Handpiece / Spot Size: Cold air-cooled, 8–18 mm spot size
Wavelength: 1064 nm and 755 nm
Cooling System: Water cooling
Water Temperature: 5–25 °C automatic control
Energy: 100 J @ 1064 nm, 60 J @ 755 nm
Pulse Width: 5–100 ms
Pulse Quantity: 1–5 T
Pulse Interval: 5–100 ms
Pulse Frequency: 0.25, 0.5, 1 Hz, 2 Hz
Pilot Beam: 520 nm green laser
Power Supply Component: 3680 watts with dual IGBT
IGBT Origin: Japan
Capacitance Capacity: 5,000 μ F \times 8 = 40,000 μ F
Charging Voltage: 10,000 μ F \times 8
Lamp: 100 \times 176 \times 10 mm
Origin: United Kingdom
Lamp Quantity: 2 units
Rod: Alexandrite Rod 755 nm
LBO: PP-LN
Output Wavelength: 755 nm
Fiber Laser Handle Origin: USA
Fiber Specifications: 2200 mm length with 1 mm diameter
Dimensions: 400 (W) \times 800 (L) \times 1150 mm (H)
Net Weight: 95 kg

What Is Alex Laser?

Alexandrite laser hair removal is currently one of the most preferred and widely demanded laser systems. It concentrates laser energy at a wavelength of 755 nm on the melanin pigment responsible for the dark color in the hair root, thereby destroying the hair follicle. It is particularly the most preferred type of laser worldwide for individuals with lighter skin tones. With Alexandrite laser hair removal, it is possible to direct high energy specifically to the reproductive part of the hair follicle and achieve long-lasting results. "Alexandrite laser hair removal delivers maximum effectiveness, especially on individuals with fair skin and dark hair."

Patirer Diode Laser

Hair Removal Device

Model Number: PTR V30 Single Handpiece 4K

Screen Size: 14-inch 4K true-color touchscreen display

Brand Name: PATIRER

Warranty: 2 Years

Technology: Dutch Technology

Handpieces: 1 Handpiece

Pulse Duration: 1–300 ms

Origin: China

Frequency: 1–10 Hz

Spot Size: 12 × 35 mm

Energy: 1–150 J/cm²

Cooling System: Water Cooling + Air Cooling

Voltage: AC 220V / 110V, 50Hz/60Hz

Device Dimensions: 45.4 cm × 52.1 cm × 101 cm

Packaging: Aluminum Case

What Is a Diode Laser?

Diode laser systems are among the most comfortable hair removal methods available, offering minimal sensation during treatment. The handpiece is equipped with an advanced cooling module that not only protects the skin's surface but also significantly reduces discomfort through its cooling effect. Mild sensitivity may still be experienced, particularly by individuals with dense hair growth. For marketing purposes, these systems are often referred to as "ice laser" devices. The common feature underlying this terminology is the specialized cooling (Peltier) module integrated into the handpiece, which ensures enhanced comfort and skin protection throughout the procedure.
